## AHMT - Company Profile

Amazon Health and Medical Tourism Pvt. Ltd. (AHMT) is a complete Medical Service Provider ----- with the expertise to serve patients in the field of Medical & Healthcare facilities in India.

'AHMT' has been formed 4yrs back on the philosophy - "*Prevention is the only cure towards better Healthy Living*".

We are a team of like minded individuals, experts in respective fields like Medicine, Travels & Tourism, Service Industries and Para-Medical Professional. Their experience of two decades brings with them the great functional expertise and perfect operational capabilities.

We are a Health, Medical & Wellness Tourism Company operating and serving in India to Various Tourists / Patients from all over the world for their regular & routine Health check - up, Medical / Surgical & Ayurvedic Treatments.

We here at 'AHMT' are facilitators for the inbound Tourist visiting India from different parts of the World ... like - African Continent , Middle East, Europe, U.S.A, Australia, U.K. etc.

The reason India is a favorable destination because of its infrastructure and technology which is at par with those in USA, UK, Europe. India has some of the best hospitals and treatment centers with World Class Facilities.

India is also one of the most favorable Wellness & Tourist Destinations in the World. We can now offer you Medical Services at the below destinations

**OUR AFFILIATIONS IN INDIA OTHER THAN MUMBAI:**  
 DELHI - GUJARAT - BANGALORE - HYDERABAD - KERALA - KOLKATA - PUNE - GOA

**"Life, Work and Mission"**

Our Company's Primary Objective is to create Awareness & Support to people who wish to visit India from various parts of the World to avail & facilitate Treatments of International Standards.

We believe customer satisfaction is the key to success. Every customer visiting India is served right from the departure of their home country --- to the completion of the necessary visa formalities, arrangement at the airport, hotel accommodation, evaluation of their medical problems with the help of expert medical professional and offering them the best ..... cost effective treatment options at the various hospitals across the country.

For any further details please email us at [info.ahmt@vsnl.net](mailto:info.ahmt@vsnl.net) or visit our website [www.amazonhmt.com](http://www.amazonhmt.com)

## WHAT is Medical Tourism !

- Having International Standards & Cost Effective Medical treatment in a Foreign Country but having a Friendly & Safe Environment

## Why India !

- Due to its significantly Low Costs .... Up to 1 / 4th.
- International Qualified Indian Doctors with Immense Experience.
- Well trained Paramedical and Nursing Staff for foreign patients.
- Maintaining International Standards & Quality Medical Infrastructure & that's Rapidly Growing.

### RESEARCH

Nearly 50% of Tourists are repeat visitors; about 10% of total international visitors to India have visited more than five times.

## Why AHMTPL !

AHMT India is not the only player in the medical tourism field in India, but it is the largest serious player in this space at least in India. The company is backed by investor entrepreneurs and not a mom & pop corner shop. It has had several hundred satisfied clients from Africa, UK USA & Middle East.

AHMT presence in over 7 cosmopolitan cities in India thus creating a greater sense of confidence & multiple Choice for Patients visiting India.

Our founder is a hard core marketing professional & in the field of Para Medicals for more then a decade, has personally visited over 40 hospitals throughout India and has established excellent relationships not only with the hospitals but doctors as well.

### AHMT Unique Features:

- AHMT - Dedicated team of like Minded Individuals, Experienced in fields like Medicine, Surgical, Travels & Tourism, Service Industries and Para- Medical Professionals.
- Cost effective access pool of qualified medical professionals.
- Affiliated Hospitals, Nursing homes with World Class Facilities & Accreditations.
- Prompt Patient Interaction before, during and after treatment by AHMT's motivated team.
- Airport to Airport service ...Advance planning of all Consulting and treatment appointments & Support Hospitalization & Post Medical Care.

## AHMT Laser Therapy

Often referred to as "bloodless surgery," laser procedures usually involve less bleeding than conventional surgery. The heat generated by the laser keeps the surgical site free of germs and reduces the risk of infection. Because a smaller incision is required, laser procedures often take less time (and cost less money) than traditional surgery. Sealing off blood vessels and nerves reduces bleeding, swelling, scarring, pain, and the length of the recovery period..... All these advantages over the normal surgical procedure are attracting more & more patients to go for it.

Over Specialty includes .....

**Endo Venous Laser Therapy (EVLT) for varicose veins:** The EVLT procedure is a minimally invasive laser procedure in treating varicose veins without scarring. The laser energy minimizes the vein walls, shrinking them and closing the faulty vein so that the blood cannot flow through it. This eliminates the bulging of the vein at its source. After the treatment, the blood in the faulty veins will be diverted to the many normal veins in the leg.

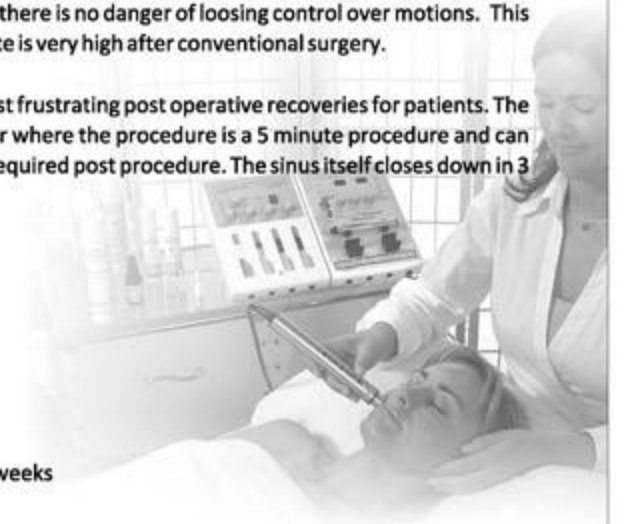

**Laser Ablation of piles:** This procedure entails ablation of veins causing piles. All types of degrees of piles can be handled with an average procedure time of 8 mins. Old patients and anemic patients can be handled under local anesthesia. Most patients are able to walk home after 6 hrs.

**Laser Ablation of fistula:** Straight single fistula is handled by this method wherein the Fistula tract is laserised from below the surface of skin leaving no extra external wound. Since there is no cutting of anal ring, there is no danger of loosing control over motions. This procedure is a boon for high fistula -in-any cases wherein the complication rate is very high after conventional surgery.

**Laser Ablation of Pilonidal Sinus:** Pilonidal sinus surgeries are among the most frustrating post operative recoveries for patients. The Pilonidal sinus surgery recovery extends to 2 months. Contrast this with laser where the procedure is a 5 minute procedure and can be performed under local anesthesia with no extra wound and no dressings required post procedure. The sinus itself closes down in 3 weeks.

..... And many more

<b>LASER</b>	<b>V/S</b>	<b>SURGICAL PROCEDURE</b>
1. OPD Procedure		Hospital procedure
2. Local anesthesia		General anesthesia
3. One hour procedure		Three - Four hours procedure
4. No visible scarring		Scar is Visible
5. No rest		Rest for one week
6. Resumes work same day		Resume work after two or three weeks

## AHMT Surgical / Medical Procedures

Traveling from another country for medical treatment is difficult enough without the added uncertainty that comes with facing new places and people. AHMT India understands the cultural and linguistic needs of patients from other countries, and has created the AHMT India International Patient Representative Cell to meet these needs. Our specially trained, multilingual staff will work with you to meet your health care needs and make your stay at our partner hospitals as comfortable as possible.

'AHMT' has served a diverse group of patients, from overseas family members to critical emergency cases, as a one-stop window for high quality personalized attention and completes medical services with an assurance of a comfortable stay for all patients and their families. Not to forget, AHMT India's International Patient Cell is a service from India's first and only serious medical tourism company which suggest International Patients the best in Clinical, Nursing, Diagnostic and Allied Areas of health Care in India.

AHMT provides a wide range of surgical / medical procedures through its partner hospital network. Over hundred medical procedures are available in various categories: orthopedic procedures such as hip replacement, Birmingham hip resurfacing, artificial knee replacement, knee surgery, Cardiac Surgeries, Renal transplant, and Liver transplant & now Cyber Knife .....The savings are up to 60% from typical USA prices.

## AHMT Cosmetic Dentistry

A beautiful smile is the first thing people notice about you. Chipped, abscessed, or stained teeth not only hamper your appearance but also affect your confidence, but thanks to cosmetic dentistry, all these problems can be corrected through varied procedures. Cosmetic dentistry is comprehensive oral care that combines art and science to optimally improve dental health, aesthetics and function

Cosmetic Dentistry process is ideal for enhancing overall looks of a face. General problems like broken, angulated teeth can be perfected; spacing between two broken teeth can be closed and discolored teeth can be made pearly white by using veneers

Before

After

## AHMT Cosmetic Dermatology & Cosmetic Surgery

We only get one chance at a first impression and the person who projects the best self-image makes the best impression. In today's competitive society, people recognize the importance of self-improvement whether it is for social or professional reasons. Exercise, skin care and nutrition are important but can only do so much. Real structural change requires more. In a sense, cosmetic surgery offers a second chance - the opportunity to defy both the calendar and genetics. "Amazon Health & Medical Tourism" we have compiled some of the most successful techniques as part of our Services to achieve this goal.

Amazon Health & Medical Tourism offers a unique option to enhance your looks, persona, sensuality, physical appeal and build self-confidence. You will be more outgoing, presentable and confident when you become accustomed to the transformation and this heightened sense of self-esteem will be a benefit that lasts a lifetime.

Indian medical tourism has brought the economical but international quality healthcare facilities available at the cosmetic surgery clinics of Delhi, Mumbai, Pune, Goa and Chennai into lime light creating curiosity among abroad natives from U.S, Canada, Europe and Africa who are very adventurous and exploring in nature.

Medical tourists and international traveller can now get cosmetic surgery packages at Mumbai, Pune, Goa and Kerala in India at low cost. Cosmetic surgery packages not only offers you beauty enhancement procedures like face lift surgery, tummy tuck surgery, nose job, body lift surgery and thigh lift surgery including laser liposuction surgery at a less cost. Also provides you health recovery physically and mentally by providing you extensive holiday tours and holiday vacations.
